SUMMARY

Proactive Technical Head with extensive experience in full-stack web development, and Python programming. Mentored junior team members and maintained operational facilities while delivering community services. Expertise in JavaScript, React JS, Next JS, responsive design, SEO best practices, and version control, fostering continuous learning and professional growth.

EXPERIENCE

E-Cell ADGITM - Technical Head
New Delhi
08/2024 – Current

- **Led event management** and development initiatives, creating project websites and coordinating technical support for society events.
- **Designed and maintained** web platforms for events, ensuring smooth operation and user-friendly experiences.
- **Oversaw a team** of junior members, fostering skill development and a collaborative environment focused on continuous learning.

PROJECTS

- **Storely – Cloud Storage App**: Built a Google Drive-like app with Next.js and AppWrite, featuring OTP authentication, file upload, and sharing for images, videos, audio, and documents.
[Live Demo](#)
- **Price-Tracker**: A sleek app built with Next.js, BrightData, and Tailwind **CSS** to track Amazon product prices. It fetches real-time details, shows current prices, and highlights the best deals for smarter shopping.
[Live Demo](#)
- **Online Code Editor**: Developed a multi-language code editor using React, Chakra UI, and Monaco Editor, with syntax highlighting, code execution, and theme toggling.
[Live Demo](#)
- **Recipe Website**: Created a responsive recipe search site with React, Tailwind CSS, and a recipe API for dynamic content.
